

## BASIC VIEWING INSTRUCTIONS

Windows 7, Vista and XP users:

Windows Media Player must be installed.

While Internet Explorer is the preferred browser to access the URL other browsers seem to work fine.

It may help to pre-install Silverlight software from Microsoft to access the Windows Media stream.

<http://www.microsoft.com/getsilverlight/Get-Started/Install/Default.aspx>

Select the Windows Media link on the browser interface.

To access the Real Media stream pre-install Real Player from <http://www.real.com> .

Select the Real Media link on the browser interface.

Mac OS X users:

To access the Windows Media stream pre-install the Mac OS X Silverlight software from Microsoft.

<http://www.microsoft.com/getsilverlight/Get-Started/Install/Default.aspx>

Select the Windows Media link on the browser interface.

Most browsers seem to work in this case.

To access the Real Media stream pre-install Real Player from <http://www.real.com> .

Use Safari as the browser to access the URL.

Select the Real Media link on the browser interface.
